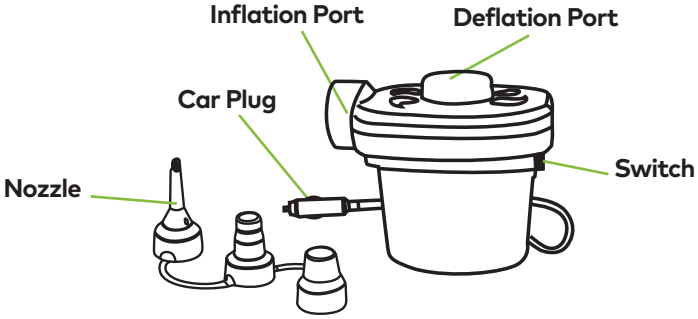
Overview

The Green Lion Inflatable Car Mattress offers a comfortable, multi-purpose solution for car travel and camping. It features a quick 2-minute inflation time, a 100 kg load capacity, and is made from high-quality PVC for durability. The mattress is designed to fit most vehicles. The package includes an electric air pump, air needles, and a cushion support for added convenience.

Airpump Components



Precaution

1. The power supply must be a 12V DC car lighter.
2. This pump is designed for inflating and deflating items such as inflatable boats, air mattresses, etc. It is not intended for continuous use.
3. When using the air pump, allow it to rest for 5 minutes after deflating with the large adapter (every 10 minutes of use), and for 5 minutes after inflating with the small adapter (every 5 minutes of use).
4. Keep the air pump out of reach of children at all times.
5. Avoid blocking the inflation/deflation port and ensure it remains

during operation.

Warning

1. To reduce the risk of injury or damage, immediately contact a qualified electrician to repair or replace any damaged parts.
2. Always follow the instructions provided with the inflatable item and never exceed the recommended pressure, as over-inflation may cause the item to burst, leading to serious injury.
3. Never leave the pump unattended while in use.
4. Do not use or store the pump in wet conditions.
5. Never allow sand, small rocks, or debris to be sucked into the inflation/deflation port while operating the pump.
6. Never look inside or point the inflation/deflation port toward your eyes when the pump is operating.
7. Never insert your hands or fingers into the inflation/deflation port at any time.

How to Inflate

1. Connect the cigarette plug to the vehicle's 12V DC socket.4.2 . Attach the adapter to the inflation port.
2. Hold the pump nozzle against the valve of the inflatable item and switch the pump to the "ON" position (the symbol "—" indicates "ON" and "O" indicates "OFF").
3. Ensure the valve of the inflatable item is not obstructed, as this could cause the pump to overheat and malfunction.
4. Do not use the deflation vent while inflating the item.
5. For larger items such as inflatable boats or king-size air mattresses, ensure the pump nozzle is placed directly into the valve for optimal inflation.
6. Use the appropriate adapter for smaller valves, such as those found in single-size air mattresses.

How to Deflate

1. Open the valve of the inflatable item.
2. Attach the adapter to the deflation port and insert it into the valve, then switch the pump to the "ON" position (the symbol "—" means "ON" and "O" means "OFF").
3. Ensure the valve of the inflatable item is not obstructed to prevent overheating and damage to the pump.
4. For smaller items, you may pinch the valve flapper with your fingers to allow the air to escape.
5. To quickly deflate, unscrew the safe bolt before inflating, then inflate the item using the pump. Once finished, screw the safe bolt back on, remove the top of the safe bolt for inflation, and finally, deflate by unscrewing the safe bolt.

Specifications

Model No.	QL-CMT3
Material	PVC Flocking
Maximum Weight Capacity	100 kg
Inflation Time	180 Seconds
Pump Input Voltage	DC 12V
Pump Power Consumption	75W
Pump Maximum Pressure	0.38 PSI
Pump Cable Length	1.8 m
Pump Noise Level	< 80 dB
Pump Operating Temperature	-10°C to +50°C
Product Weight	2.6 kg
Pump Airflow Rate	250 L/min
Product Dimensions (Inflated)	45 x 75x 125 cm
Product Dimensions (Folded)	12 x 30.5 x 31 cm

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Green Lion** website or shop come with a 24-month warranty.

When you buy **Green Lion** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **https://www.greenlion.net/warranty** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
