EON HEATED SLEEP EYE MASK

SKU: PDLFSTAR23GY

Preface

Thank you for choosing the EON HEATED SLEEP EYE MASK. Its soft ergonomic, light-blocking design combines three-level heat therapy with built-in relaxation sounds and Bluetooth music streaming for comfortable moments of rest.

Package Contents

1. EON HEATED SLEEP EYE MASK × 1

Safety Precautions

Warning:

1. Do not use the product while driving, cycling, or in any situation where blocked vision or sound is dangerous.
2. Do not listen at high volume for long periods — prolonged exposure to loud sound can damage your hearing.
3. Stop use immediately if the mask becomes excessively hot or causes pain, burning, numbness, skin irritation, or eye discomfort.
4. Do not use the heat function on areas with reduced heat sensitivity or impaired circulation.
5. Do not use the product if it is damaged, swollen, leaking, unusually hot, or malfunctioning.
6. Do not puncture, crush, disassemble, short-circuit, or expose the battery to fire or heat sources.
7. Keep the product dry during use and charging, and never charge it with wet hands or while it is wet.
8. Charge through the USB-C port using a certified power source matching the rated DC 5V/1A input.
9. Do not cover the product or place it under heavy objects while charging.
10. Do not allow children to use the product without adult supervision.
11. Do not charge the mask if the product, cable, connector, power adapter, or charger housing is damaged; stop charging and disconnect safely if abnormal heat, smell, leakage, swelling, or malfunction occurs.
12. Do not sleep with the heat function operating or leave the product operating unattended.
13. Do not rely on unspecified battery protection functions; if charging or operation stops abnormally, switch off the product, disconnect it, and do not use it until it has been inspected.
14. Do not dispose of the product or its lithium battery in fire or general waste; use applicable battery and e-waste collection facilities in accordance with local regulations.
15. Do not modify, open, or attempt to repair the mask, electronic housing, or battery; contact authorized service if repair is required.

Attention:

1. Ensure the mask fits comfortably without excessive pressure on the eyes or face.
2. Allow the product to cool before cleaning or storing it.
3. Clean only as directed, and do not wash or immerse electronic components.
4. Keep the charging port clean and dry, and disconnect the cable carefully without pulling on it.
5. Store the product away from direct sunlight, moisture, sharp objects, and heat sources.
6. Operate and store the product only within the manufacturer-validated operating and storage temperature ranges.
7. During extended storage, recharge the battery at least every 3 months.
8. When disconnecting the charging cable, grip the connector body rather than pulling the cable.

Usage and Care Instructions

1. Charging the Mask:

Connect a compatible charging cable to the USB-C charging port.

Connect the other end to a DC 5V/1A power source.

Allow approximately 2 hours for a complete charge.

Disconnect the charging cable before wearing or operating the mask.

2. Wearing the Mask:

Place the mask over your eyes with the control module facing outward.

Position the nose contour so the mask sits comfortably and blocks surrounding light.

Adjust the elastic fit around your head without overtightening.

Confirm that the mask is secure and comfortable before use.

3. Power and Heat Therapy:

Press and hold the multi-function button to switch the EON HEATED SLEEP EYE MASK on.

Use the multi-function button to cycle through the three heat levels: 40°C, 45°C, and 50°C.

Choose a comfortable heat level before resting.

Press and hold the multi-function button to switch the mask off after use.

4. Heating Timer:

Switch on the mask and select the desired heat level.

Use the multi-function button to select a timer option of 15, 30, or 45 minutes.

Use the heating function only while awake and able to monitor the product.

Switch the mask off when it is no longer required.

5. Bluetooth Music Streaming:

Switch on the EON HEATED SLEEP EYE MASK.

Open the Bluetooth settings on your audio device and search for available devices.

Select the mask from the available device list to connect.

Start audio playback on the connected device.

Use the mask controls to adjust the volume or change tracks.

6. Music Controls:

Use the Volume Up / Previous Track button to control volume or return to the previous track.

Use the Volume Down / Next Track button to control volume or advance to the next track.

Adjust playback to a comfortable listening level.

The mask can also play its built-in relaxation sounds.

7. Removing and Washing the Cover:

Switch off the mask and disconnect it from the charging source.

Open the zipper and carefully remove the washable eye mask cover from the control panel liner and electronic components.

Wash only the removable fabric cover.

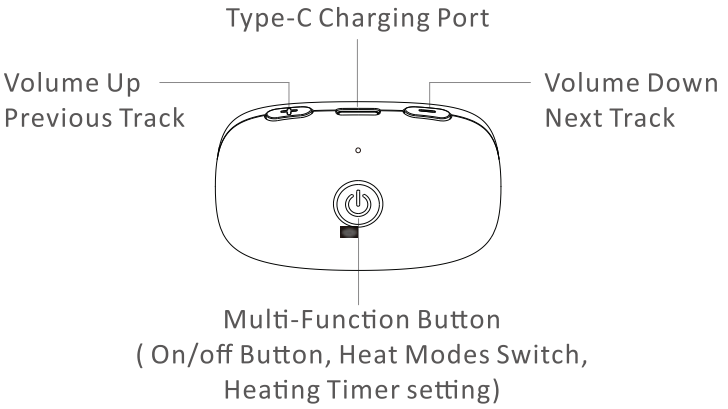

Allow the cover to dry completely before reinstalling it.

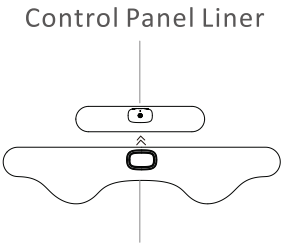

Align the control panel liner correctly, refit the cover, and close the zipper securely.

Controls and Fit

The EON HEATED SLEEP EYE MASK uses a multi-function button for power, heat modes, and timer settings, with separate controls for music and volume. The removable zippered cover is washable.

1. Volume Up / Previous Track Button
2. USB-C Charging Port
3. Volume Down / Next Track Button
4. Multi-Function Button
