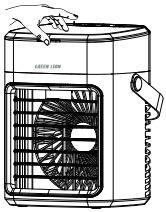
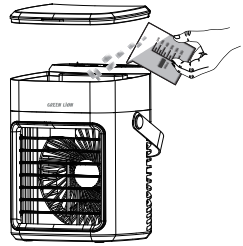
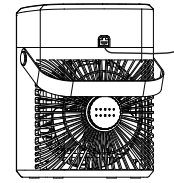
Usage Instruction



Press and hold the water tank button to open the water tank



Ice water addition method



Connect the charging part on the product (Use with 5V2A or higher adapter)

1. Before opening the product, please read the operation manual carefully, take out the product, and place it on the horizontal desktop.
2. Open the water inlet and add clean tap water. The amount of water added shall not exceed the high water level, and then close the water cap.
3. Connect the power supply, the indicator light flashes, and the surface power is normal.
4. Press the power button gently, the machine will enter the working state, and the default wind speed is gear 1.
5. After the machine is turned on, operate the machine as required.

Common Problems and Solutions

If the product fails to operate or operates abnormally, please check according to the table below. At this time, it is recommended that you contact the dealer.

Problems	Possible Cause of the Problem	Solutions
When the power is turned on, the indicator light is not on, and the product does not work	The socket has no electricity	Re-Power Supply
	Adapter plug is not plugged in	Reinsert
Under the refrigeration mode, no spray or less fog	No water or too little water	Add enough water to the product
	The water used is not clean	Replace Clean Water
	The silica gel ice making box is added to cool the ice	Pour it out, rewash and add clean water
	Sponge stick is contaminated	Suggest replacement
	The water tank was not cleaned for a long time	Clean the water tank and add clean water after cleaning

Important Notes

1. The product should be placed on a flat surface during use, and be careful not to cause the product to roll over or collide during use.
2. The water added to the product must be clean tap water or purified water. Detergent, unknown liquid, chemical agent, etc., cannot be added to the water tank to start atomization.
3. Please add water to the product when the product is powered off.
4. If the electronic control part is accidentally immersed in water, which results in garbled display and key failure, please do not continue to use it. It can be placed in a dry place to wait for the water to dry or directly use an external fan to dry the water traces before attempting to power on.

5. Replace the water in the water tank every day, and clean the inside of the water tank regularly to keep the inside clean to avoid the growth of mold or odor.

6. The water tank can be used with pure water or tap water ice cubes. Please do not use silica gel ice. If the water in the water tank is frozen, do not use it.

7. There can be no objects blocking the air inlet/outlet.

8. Please don't give the elderly, infants, or people with limited mobility to directly fix the air for a long time, so as not to cause discomfort.

9. Do not approach furniture, curtains, walls, etc., during use to avoid discoloration, staining, deformation, and other problems.

10. Do not blow air to other household appliances at close range in the fogging state, so as to avoid other products from malfunctioning.

11. Please avoid direct sunlight or place it around heating appliances.

12. Please use a suitable power supply to charge the machine.

13. When the product is not used for a long time, the product should be turned off, and the water tank should be kept dry and clean.

14. Please clean the product after turning off the power to avoid accidental electric shock.

15. Please do not disassemble the product by yourself, so as to avoid damage to the product and cause accidents.

16. Please place it out of the reach of children, do not let children use it alone.

17. Please do not put fingers, body parts, or debris into the air inlet/outlet to avoid injury.

18. Please do not open the water tank during the fogging work, and do not touch the atomizer sheet with fingers and body parts to avoid injury.

Specification

Model	GL-AC12
Material	ABS
Battery	2000mAh
Power	10W
Fan Speed	3 Levels
RPM Range	3500 RPM
Airflow	3.7 m/s
Timer	2H-4H
LED Light	7-Color
Water Tank	400mL
Cooling Time	4 Hrs Per Fill
Noise Level	55 dB
Mist Output	110 mL/h
Charging Port	USB-C
Charging Time	2 Hrs
Working Time	2-4 Hrs
Product Weight	820g
Product Dimensions	173*149*225 mm

Disposal

Do not dispose of discarded electrical appliances as unclassified urban waste. They should be handed over to an officially designated recycling center, which is beneficial for environmental protection.

Warranty

Products that you buy directly from our **Green Lion** website or shop come with a 24-month warranty.

When you buy **Green Lion** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **https://www.greenlion.net/warranty** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
